CONCEPT

Trincadeira preta (sin. Tinta Amarela) is a local grape varietal, with likely origin in south of Portugal. Out of fashion, unloved, it still represents the 2nd biggest planted area in the region. Thin skinned, fragile, when it rains, it tends to burst and rot, when it is too hot, it tends to raisen. Being very hard to find the right picking time. This "Trincadeira is not that black" was picked at the possible moment, and vinified with minium interventon to show all of its pure potential. The result? A fresh breeze from the past that has been lost, but actually has ben here all the time.
